AI MASTERS OPOLE 2019**

Los Dziubkos

• Solution

efficiency

moisture

bulk density

PARAMETERS OPTIMIZER INSIGHT PROVIDER

Let's check new parameter influence on final product

Recipe parameters optimizer

0.067

0.443

0.177

0.352

11.40

CALCULATE!

Optimal parameters:

water correction: -40

steam pressure: 8.2

sifthers speed: 0.7

speed dd: 8.0

water correction

steam pressure

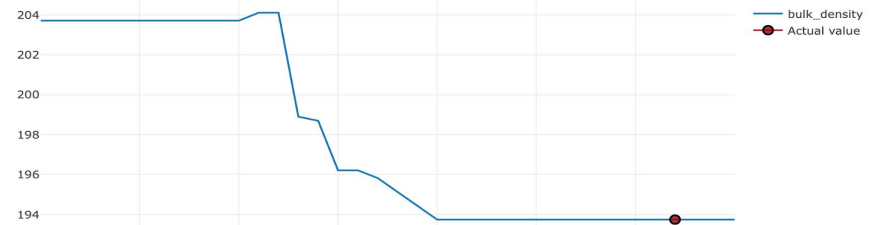

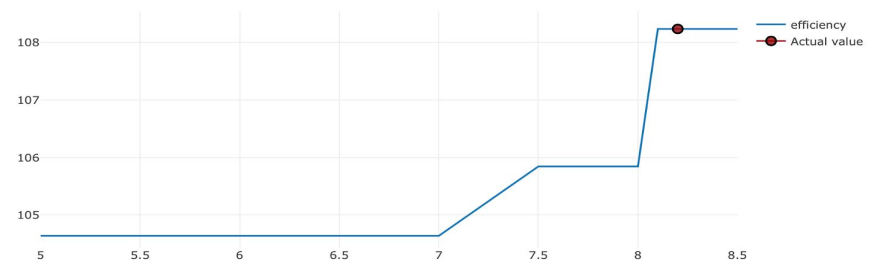

sifthers speed

speed dd

adjust value...

RUN!

undo

Fill in input
parameters
and find
optimal values
of variables
